

NC Series PCB Linking Conveyor

As a linking device between two important machine of SMT line, multiple function, ESD workbench is equipped.

FEATURES

- TBI screw.
- Omron sensor.
- Bypass/ pass through function.
- Customize length

Optional

- Stainless metal chain/ free flow metal chain.
- Rework station with cooling fans and iron support.
- Cooling cover with Hydraulic rod.
- Dust cover.

Specification	NC-BC-350	NC-BC-460
Power supply	AC 220V/110V 50/60Hz	
PCB size (mm)	460*50~350	535*50~460
Direction	Customize left to right or right to left	
Trick fixed side	Front side or back side	
Transport speed	1-12m/min adjustable	
Transport height	900 ± 20 mm/ 950mm	
Main motor power	100 W	
Machine size	500*665*920	500*800*920
Weight (kg)	50	75
