

SMD Chip Counter

APPLICATIONS

By using the principle of photoelectric sense, C-2000 Series SMD Counter can take the advantage of the relations between the sprocket holes and the parts and count the SMD parts accurately and quickly. It is the high-efficient auxiliary equipment for SMT material management.

FEATHERS

1. High precision and free from counting errors.
2. All SMD general-purpose reeling packing parts are applicable.
3. Countable for in both forward and reverse directions, with double check feature; able to preset the quantity.
4. Simple operation and unique pocket falling-proof design will minimize the damage to the tape.
5. The patented inclined operation panel enables users to see the parts in both the display and the pockets.

SPECIFICATIONS

1. Power:	AC220V/50HZ or AC110V/60HZ
2. Counter:	-59999 to 59999pcs
3. Dimension:	410 x 235 x 240mm
4. Tapes:	All SMD tapes
5. Print:	Yes (option)
6. Missing component detection	Yes (option)

OPTIONS

1. Label printer
2. Bar code copy
3. Empty chip detection
